What the System Shows

- Applicant ranking without exposing personal identity.
- Rent-to-income ratio using conservative income calculation.
- Document status: income, ID, insurance, reference and credit.
- Neutral risk notes aligned with fair housing / human rights principles.
- Missing document detection and manual verification checklist.
- Owner-ready recommendations with clear next steps.
- Professional privacy-safe report format for client delivery.
- Demo data only - safe to publish on website or share by link.

A more professional rental process, powered by AI and property management experience.

Marketing demo only. Final decisions remain with the owner and must follow applicable laws.
